

# QUALITY, SAFETY, HEALTH AND ENVIRONMENT (QSHE)

## ALPHATEC ENGINEERING POLICY

We are committed to fully satisfying our customers. Therefore, ALPHATEC ENGINEERING, S.L., a company that designs, produces and commercializes epoxy resins for concrete structure repair for machinery, has decided to implement a Quality, Safety Health and Environment management system(OHS) in order to achieve the following:

- To achieve the highest quality in our products, by working with the best suppliers and having highly qualified personnel.
- To meet the requirements and expectations of our customers.
- To follow and comply with the legislation and regulations that apply to Alphatec Engineering S.L., wherever it operates, as well as those commitments voluntarily adopted, including particularly those related to environmental aspects and performance of OHS.
- All members of ALPHATEC ENGINEERING, S.L. are important and expected to contribute to meeting the objectives, the involvement of each member is important. We encourage a culture of risk prevention and training to improve health and safety. Accidents and incidents at work are avoidable by adopting the necessary measures to identify, evaluate and control possible risks.
- People are the most important asset and guarantee our future. Therefore, they must be qualified and their opinions must be taken into account. We establish appropriate mechanisms for seeking their advice and active participation when it comes to managing and improving OHS policies at Alphatec Engineering S.L.
- To improve the Alphatec Engineering S.L. brand, thus standing out among competitors.
- To promote environmental safeguard and therefore prevent pollution, thus minimizing its effect on environment and people by using the most appropriate means within our daily activities: waste reduction, reusing and recycling.
- Company management is committed to having this policy understood, implemented, and maintained at all levels of Alphatec Engineering S.L.
- Lastly, with the implementation of this quality management system, we aim to improve our processes, foster continuous improvement, customer satisfaction, carrying out our activities without compromising health and safety aspects due to economic or productivity-related reasons.
